His Participation in the Columbian Cele brations Dependent Upon His Wife's Health At the White House today it is said that the President has not arrived at any decision about his attendance at the Columbian celebration i New York.

His decision will rest entirely upon the con dition of Mrs. Harrison at the time. There is said to be no ground for the alarming stories about Mrs. Harrison's condition. Her condition fluctuates from day to day, and when it is reported, that she is not as well on one day as another it does not mean a permanent decline, for she is just as likely to improve a little by the next day.

THE CANADAY TRAGEDY.

He Did Not Commit Suicide. Notwithstanding the verdict of the coroner

jury there are not a few people who believe that the late Col. Canaday did not commit suicide. Yet, so far as can be learned, none of them care to state who, if not the dead man, did fire the shot which caused death. Nor do they advance any tangible theory as to the motive which, if any tangible theory as to the motive which, if the deceased did not die by his own hand, which they did not care to disclose to the pubprompted the act of the unknown party or parties. These people merely shake their heads when the idea of sucide is men-tioned, but decline to make known the grounds upon which they base their doubt beyond the bare statement that the position of the body, when first discovered, was not that of a sui-cide.

A Radical Innovation to Be Made in Build The plans for the new armored cruiser, No 3. provided by the last session of Congress, and which were described at length in THE STAR of last Saturday, are found to include one radical innovation in the construction of war ships. > New Volcano Discovered. In a letter to the Navy Department from Unalaska dated September 24 Commander Evans of the United States steamer Yorktown states that a new and very violent volcano erupted on the Alaskan peninsula in about lati-tude 56 north, longitude 159 degrees 20 minutes west. The moise of the cruption, which took place during the last week of August, was heard at a distance of ninety miles and the clouds of ashes and cinders were so dense at a distance of 150 miles at sea that the steamer St. Paul was compelled to light her lights at 10 o'clock in the morning. Her decks were covered with sakes to such an extent that many bucketfuls were swept up and thrown overboard. No loss of life or property from the explosion had been heard of at the date of Commander Evans' letter.

WES. WILLIAMS DON'T BELIEVE THE SUICIDE STORY.

Mrs. Jennie Williams, the sister of the dead man, who came here last Sunday from her home in Columbus, Ohio, would not for an instant believe that her brother died by his own act. She stated that her brother was not such a man, no matter how great his troubles, as to take his own life. Mrs. Williams left for her home this morning, but yesterday she had a conference with the police officials who are engaged on the case and also one with Dr. J. S.
